

A29-P760-G5

PRODUCED IN:
SRI LANKA

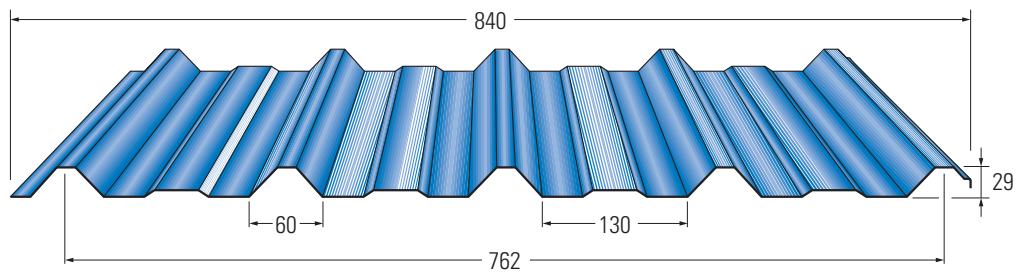

TRIMCLAD A29-P760-G5 sheet steel roofing wall cladding is a modern profile with widely spaced ribs that makes it suitable for a variety of applications.

It is ideal for roofing and wall cladding on commercial, industrial and residential buildings.

In custom cut lengths, its lightness and spanning ability mean economical, wide support spacings.

TRIMCLAD A29-P760-G5 can be used on roof pitches of 3°. Fixing is fast as the long, straight sheets fall easily into place.

A13-P850-G5

PRODUCED IN:
SRI LANKA

METROCLAD A13-P850-G5 is a roll formed, custom length steel uniformly profiled cladding material.

These sheets are available in custom lengths for wall cladding.

METROCLAD A13-P850-G5 is a wall cladding material suitable for factories, garden sheds, garages, fencing and soffit linings.
