

# A42-P940-G4

**PRODUCED IN:  
VIETNAM**

A42-P940-G4, the ultimate profile in roofing and cladding panels, made from HIGH TENSILE steel sheets, COLORBOND / PZACS / ZACS / ZINCALUME coated and pre-painted in a variety of dazzling colors.

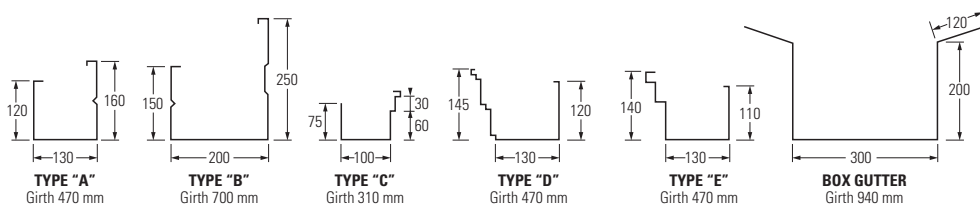

Each sheet has a cover width of 940 mm and is designed to lock down over concealed fixing clips which in turn are fixed on to the Purlins. It is manufactured by continuous roll form method and is an ideal roofing material for use on commercial and industrial buildings.
