

New-Metkclip

PRODUCED IN:
THAILAND

NEW-METKLIP, a triple pan profile utilizing a powerful clips system, suitable for roofing and cladding panels. The **NEW-METKLIP'S** triple pan eliminates up to 45% of the side laps required in a double pan profile and therefore offers much more superior protection against leakage particularly in heavy rainfall intensity regions of Asia.

Corrodeck

PRODUCED IN:
THAILAND

The main properties of **CORRODECK** are wide coverage, long lifetime (4 times of Zinc) and save cost of installation. The standard lengths are from 6 to 10 feet.
